INTERNATIONAL SCHOOL

**21-22 April 2012**

NORDIC NETWORK CONFERENCE

HOSTED BY

## Nordic Network Conference 2012

### "International – Intercultural – Intellectual Learning"

Keynote speaker Prof. Martin Ingvar

"PUTTING CULTURE IN THE BRAIN"

A globalized society must prepare the next generation to meet the problems of the future. The transition from a knowledge based to an information based society should also change education.

The young brains will find and incorporate cultural influences from where it is relevant.

The societal ambition to transfer its own culture to the next generation spells relevance.

#### Distinguished Speakers:

**Heather Lapper/ IBO:**

- Changes in the MYP and their correlation to international mindedness

**Barry Upton/School Improvement Consultant:**

- EAL and Maths
